## Our Story

The original Kilner® Jar, first invented by John Kilner and Co. in 1842, in England, is as much-loved and successful now as it was over 180 years ago. Its long-lasting popularity is owed to its unique pressure seal, iconic design and overall quality. Put simply, households all over the world trust it to successfully preserve and pickle their fruit and vegetables.

In the 1900s, Kilner® presented its innovation as 'the original and the best, all other brands are substitutes', a claim which remains as relevant today, and is a testament to its impressive heritage.

A surge in popularity for preserving home-grown fruit and vegetables, and storing food in glass rather than plastic for its health benefits, has catapulted the Kilner® Jar into the limelight in recent times. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

From New York to Tokyo, Paris to Oslo, consumers around the world love using Kilner®. As a result Kilner® Jars can be found in world-famous department stores and small independent shops around the globe.

Keep checking our social media channels and Kilner® website for lots of inspiring activities, from mouth watering recipes to collaborations with bloggers and other influencers.

## **THE ORIGINAL AND BEST**

The Kilner® Preserve Jar embodies the traditional Kilner® styling. Featuring a unique pressure seal lid and easy to use metal screw top band, the jars are perfect for preserving fruit, jams, jellies and pickling vegetables.

# Preserve Jars

The luxury glass preserve jar with traditional Kilner® styling features an easy-to-use metal screw top lid made up of two pieces; a replaceable vacuum seal and a metal screw band to secure the seal. The screw band can be re-used up to 10 times but the vacuum seal needs to be replaced after each use.

## Fruit Preserve Jars

The 0.4 Litre Kilner® Fruit Preserve Jars are a fun and fashionable way to serve precious jams and preserves.

The unique designs have been inspired by some of our favourite preserve ingredients. Each jar features detailed embossing including a Kilner® logo and complement our wider screw top jar range perfectly.

The two-piece lid, with a screw band and disc creates a perfect vacuum seal.

The glass jars are dishwasher safe for easy and convenient cleaning.

## **BOTTLES**

The Kilner® Bottle range has been specially designed to create, preserve and store cordials, flavoured alcohols and oils.  
Kilner® Bottles are economical, reusable and versatile.

# Oil Bottle Rack Sets

Introducing the Kilner® Oil Bottle & Rack Set Collection, featuring two new sets designed to infuse a touch of elegance on the kitchen countertop and dining table. The 0.6 litre bottle set is an ideal companion for storing flavourful, home-infused cooking oils and vinegars. Equipped with stainless-steel pourers to ensure a smooth and drip-free flow, each bottle includes embossed capacity indicators in ml for precise measurements. The bottles rest neatly in a powder-coated steel rack, enhancing both organisation and aesthetics.

The 0.3 litre offers a smaller capacity suitable for salad dressings, balsamic vinegars, and dipping oils. Safely housed in the compact rack with a convenient carry handle, this set ensures easy and secure transportation from the table back into the cupboard. Complete with swing clip top lids to maintain freshness and versatile pouring, this set combines practicality with style.

Place the strainer cap onto the jar and set aside at room temperature to allow the fermentation process to begin.

Strain the liquid to separate the grains then add the stainless-steel lid for storage. Grains can be reused.

# Seasoning Grinder

The Kilner® Seasoning Grinder is the perfect kitchen gadget for grinding and storing ingredients such as rock salt, peppercorns, spices, dried herbs and seeds. Create unique seasoning blends and flavoursome rubs by grinding mixed ingredients together.

The hand operated grinding mechanism is made from high quality stainless steel and ceramics parts with adjustable settings to control the coarseness of the mixture.

Keep the final mixture fresher for longer in the 250ml glass jar with one-piece lid.

The grinding mechanism can be used on the 0.5 litre and the 1 litre Kilner® Preserve Jars.

Grinder Mechanism can be used on the 0.5 and 1 litre preserve jars

# Sprouting Set

The Kilner® Sprouting Set is designed to make sprouting and storing seeds or pulses as simple as possible. Sprouting is a great way to add extra nutrients, flavour and texture to your dishes and this set provides the best conditions for sprouts to develop.

Ideal for broccoli, green beans, radish, lentil, alfalfa sprouts and many more.

Simply soak the seed or grain in the 0.5 litre glass jar for the required time. Drain using the stainless steel insert and then place the jar and insert into the ceramic base, allowing the sprouts to develop as excess water safely drains away into the base. Developed sprouts can then be consumed straight away or stored in the glass jar using the one-piece lid.

Soak seeds or pulses for required time and then drain away the water using the mesh insert. Rinse and drain again.

Place the jar and mesh insert into the ceramic base and leave sprouts to develop, rinsing 2-3 times a day.

Once sprouts are ready consume straight away or store in the jar for up to 4 days.

# 1 Litre Fermentation Set

The new 1 Litre Kilner® Fermentation Jar Set provides the easy way to create smaller batches of your own delicious, fermented foods packed with vitamins, minerals and probiotic cultures.

The wide neck opening on the jar allows for easy filling and decanting of the finished creation. The unique silicone duck beak shaped valve incorporated in the lid releases the gases that build up inside the jar during the fermentation process. However, the atmospheric air on the outside will not be able to enter the jar, which usually causes food to spoil.

The ceramic weights sit on top of the ingredients to ensure that they are kept under the brine solution.

Once fermentation is complete, the one-piece lid allows you to store the finished food in the fridge ready to consume.

Once the desired taste and texture is achieved, replace with the one-piece lid and store in the fridge.

# Fermentation Packer

The Kilner® Fermentation Packer is an essential tool for preparing and packing vegetables, to create fermented foods such as Sauerkraut and Kimchi. Made from beech wood, the Fermentation Packer has a textured mashing head, designed to help break down the ingredients, eliminate air bubbles and release the tangy flavours synonymous with fermented foods.

The packer is suitable for the Kilner® 3 and 5 litre specialist Fermentation Sets but can also be used with a variety of wide mouth jars from the collection.

## 5 Litre Fermentation Set

The larger Kilner® 5 Litre Fermentation Set allows you to create bigger batches of delicious, fermented foods packed with added vitamins, minerals and probiotic cultures.

The silicone lid with air lock, allows gases to be released but does not allow air to enter the jar during the fermentation process.

The clever design of the silicone sheet and glass weight, ensures that the contents are submerged under the brine to prevent any spoilage.

## Silicone Fermentation Lid & Air Lock

The Kilner® Silicone Fermentation Lid & Air Lock is specially designed to be used with a 3 litre Kilner® Jar (featured on page 14). The lid is made from premium silicone and combines an air lock which in turn creates an anaerobic atmosphere which is perfect for fermenting foods.

The air lock allows gases to be released from the fermenting foods, but does not allow air to enter the jar. Air entering the jar from outside can cause the food to spoil. Adding the fermentation lid to a Kilner® Jar means that you can make probiotic-rich foods at home.

# Social Media: We Are Storytellers

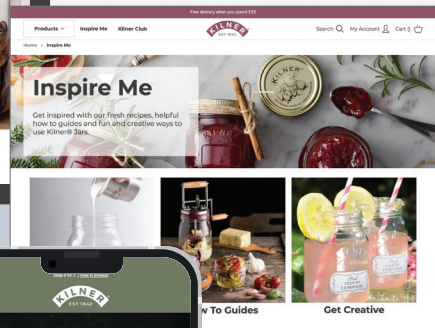

People love a human interest story, especially one they can interact with. By creating stories around our products relating to climate change, fashion, and healthy eating, we can access a wide audience that are conscious of the world around them.

Kilner® walks the line between the food-forward trends of the modern world and the traditional homestead aesthetic of the past.

Our digital feed ranges from traditional jam-making and vegetable preserving to 'on-the-go' food storage and trending homemade recipes.

## WEBSITE CONTENT

Get inspired with our fresh recipes, helpful how-to guides and fun and creative ways to use Kilner® Jars.

## THE KILNER® CLUB

Our Kilner® Club members are true fans of our products who not only own them but are also passionate about preserving, crafting, and innovating with them. Each month, we send out a series of emails to our club members that include relevant recipes and informative how-to guides.

We use multiple channels to gain new subscribers, including a user-friendly sign-up option in all our packaging, making it easy for interested individuals to join our community.

## SOCIAL MEDIA

Creating and sharing trend-led videos, exciting giveaways and helpful content allows us to reach and engage with our online audience.

## Influencer Outreach

With access to a number of influential bloggers, we foster relationships and build trust to encourage promotion of our brand to their followers. We send out samples and ask for impartial reviews which translate into shares with their vast networks, driving traffic to our own social media and websites.

## Video

Video content is king! When scrolling through the busy world of social media, we need to capture attention and inform, educate and entertain, making followers more likely to remember our brand. Videos are an important way for us to show how to use our products and create brand engagement.

## Customer Partnerships:

## Quality and Manufacturing

Kilner® have the knowledge and experience to develop and produce high quality glass jars that will last longer and keep your ingredients safe.

From the start of production to the finish, our experience enables us to select the best quality production techniques, as well as ensuring quality is to the highest standard possible.

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids.

QUALITY IS VERY IMPORTANT TO KILNER®:

- ✓ All Kilner® Glass Jars are batch tested at source to AQL level 2.
- ✓ An additional quality check is also undertaken at our UK warehouse.

**CHOOSE KILNER® AS WE ONLY USE QUALITY FOOD GRADE MATERIALS!**

**KILNER® USES FULLY AUTOMATED MANUFACTURING METHODS FOR A NUMBER OF REASONS:**

Even thickness of glass ensures there are no weak spots

"A" Grade soda lime glass, the safest option to store food and drink

We can design our own unique shapes and emboss glass with the Kilner® logo

## Glass Versus Plastic

### MORE REASONS TO CHOOSE KILNER®

Glass is BPA free meaning harmful chemicals or toxins do not leak into your food.

Glass locks in taste and aromas, is easy to clean and doesn't take on residual odours, tastes or stains from food and drink.

Reusable and recyclable - even if it's broken. Using glass is friendlier on both our pockets and the environment.

Clarity of glass is clearer

Secure seal fitment

High quality stainless steel clips engineered to ensure the clip tension is 100% perfect
